### Description

A perfect **Konjac Sponge - Rose** present option for that significant person in your life. Japanese Konjac Sponge. This 100% natural sponge has a soft texture, a natural facial and body cleansing sponge made out of vegetable fibbers of Konjac root. The Konjac Sponge has been used in Japan first as a bath sponge for new-born babies for more than 100 years because of its soft texture. Due to the popularity the Konjac Sponge has been on the rise as facial cleansing and bath sponge in China, Southeast Asia and Europe. These Konjac Sponges have a unique propriety layer that can hold water very well. When the sponge is saturated with water, its surface is covered by a water layer. This water layer on the sponge's surface constantly acts as a buffer to the skin and the layer forms a barrier between the sponge and the skin. As a result, the skin is never in direct contact with the fibber and it will not scratch and damage the skin even with hard scrubbing. Our collection of products in this this
