Description

Molten Glass on Wood- Water Jug as a gift option is an exceptional choice for that significant person in your life. Our handmade melted glass on Wood is probably the biggest thing out of Bali in years, in Holland already a massive trend. Everything house plant related and natural is a major trend, and this beautiful and natural product is right on the button. They are crafted by hand in Bali from recycled glass and Balinese Gamal wood. This stunning, molten art glass vase brings the best of two worlds together: natural and man-made; earthy and chic; practical and spiritual. The glass is hand-blown and while still hot it is then relaxed over a piece of Gamal root, the glass then hardens to the shape of the wood ensuring a perfect fit. They are crafted using a natural product by using hand tools in the traditional Balinese way. It provides a one-of-a-kind setting for stones and air plants, cut flowers or a wine decanter. Bring nature inside with these absolutely beautiful (and affordable) natural works of art. Jug Size: H:18cm D:10 cm Capacity: 0. 6l You might be intrigued by the selection of products in this this

sorting. This offer could capture your interest.
