Description

Want to surprise your significant someone with a as a favor? **Niaouli Essential Oil** collection of presents is the ideal choice. Melaleuca Viridiflora. Part Of Plant Used : Leaves and Twigs Source : Indonesia Extraction Method : Steam Distillation Niaouli Essential Oil isn't the greatest smelling essential oil. What it lacks in aromatic appeal, however, it makes up for in its therapeutic benefits. It's an excellent choice for use with respiratory concerns, skin infections and acne. Aromatically, Niaouli Essential Oil is generally not considered a pleasant essential oil. The aroma is camphorous, earthy and a bit harsh. It's never a good idea to form an opinion of the aroma of an essential oil by simply smelling it straight from the bottle. The pain-relieving property of this oil makes it a very good analgesic. It eliminates pain by inducing numbness in the nerves and by desensitizing the area. It is very effective in relieving the pain of headaches, migraines, toothaches, earaches, and muscle and joint pain, as well as pain due to sprains. This oil stimulates the circulation of the blood and lymph, thereby preventing the accumulation of uric acid in the joints and bringing warmth to various parts of the body. These two factors together help give relief from rheumatism, arthritis, and gout. Open wounds are prone to infections since bacteria, fungi, and other microbes have a very good chance of getting into the bloodstream through these wounds. Bacteria also reside in the urogenital tracts, colon, prostate, intestines, and kidneys and cause infections of the urethra and other sensitive body parts. The essential oil of Niaouli, thanks to its antiseptic properties, can inhibit bacterial growth in those areas and gives good protection against sepsis, tetanus, and infections of the other internal organs.
