Wooden Wick Concrete Candle will fit in any style of home and will be sure to create a unique focal point and be noticed! Felt pads have been added to the bottom to prevent the scratching of surfaces. The natural wooden wick creates the soothing sound of a crackling fire! the design of the concrete pot allows reusing it to integrate it into your decor once the candle is consumed such as a plant pot. The good thing about using a material such as concrete means that every item made is unique with its own anomalies and quirk. It also makes the perfect Valentine's gift, wedding favour and table decoration.
