### Description

The **Quality USB Ball Salt Lamp - 8 cm (single)** as a giveaway selection I have found would be an ideal choice for your partner. Single Colour Himalayan Salt lamp This Himalayan Crystal Salt Lamps by is believed to create negatively charged ions in the air. This is a good thing because modern day pollution and electrical equipment create positive ions in the air which are potentially harmful to us and cause air quality in areas affected to deteriorate. By using a Himalayan Crystal Salt Lamp you replace the negatively charged ions in the air which help us to avoid the alleged physical and mental harm that the electric smog' creates. Comes complete with light fitting, bulb and Usb connector which is 150 cm long. Rather than sell them by size we sell them by approximate weight. Items are marked with sizes to give a rough idea of size only. Every lamp is completely unique ! You may find it worthwhile to delve into our selection of products within this this

group. This opportunity may pique your interest.
