Description

Small African Tumble Stones - Bloodstone - Sephtonite product makes for a great as a bestowal option for someone special in your life. Bloodstone is a rare variety of chalcedony. It is a dark green stone with red spots due to the iron oxide content. Red inclusions can take many forms: spots, stripes and can be dark or almost invisible. Beautiful and attractive mineral appreciated by collectors. Bloodstone is considered as a stone of courage and winners. You may find yourself intrigued by our selection of products in this particular this

segment. Our offer could be of interest to you.
