Description

Small African Tumble Stones - Jasper - Red is also a great as a souvenir suggestion for someone special to you. Red jasper is a compact and fine-grained sedimentary rock formed by chalcedony and quartz in varying amounts. It has a red, warm colour and colourful streaks on the surface. Red jasper is known as the stone of endurance that brings strength and physical energy. We have a range of products in this this

variety, and this offer could be of interest to you.
