Country of origin	China

Description

Wintergreen Essential Oil as a favor selection is undoubtedly the ideal choice for that significant person in your life. Gaultheria Fragrantissima Plant Part Used : Leaves Source : China Extraction Method : Steam Distillation Aromatic Description: Sweet, minty, refreshing This Wintergreen Essential Oil is derived from the leaves of a creeping shrub found in coniferous areas. The main chemical component in Wintergreen, methyl salicylate, is used in topical creams and massage blends because of its soothing properties. In fact, Wintergreen and Birch are the only plants in the world that contain methyl salicylate naturally. As a flavouring, small amounts of Wintergreen are used in candies, toothpaste, and chewing gum. When diffused, Wintergreen has a refreshing aroma that's uplifting and stimulating. We highly recommend taking a look at our selection of products in this this
